Product and Personnel Certification

Technical Reviewer

Notice: The certificate is subject to terms and conditions overleaf. Any significant changes in design or construction may render this certificate invalid.

If any person suffers loss or damage which is proved to have been caused by any negligent act or omission of Det Norske Veritas, then Det Norske Veritas shall pay compensation to such person for his proved direct loss or damage. However, the compensation shall not exceed an amount equal to ten times the fee charged for the service in question, provided that the maximum compensation shall never exceed USD 2 million. In this provision "Det Norske Veritas" shall mean the Foundation Det Norske Veritas as well as all its subsidiaries, directors, officers, employees, agents and any other acting on behalf of Det Norske Veritas.

Cert. No.: **66412-2009-CE-OSL-DNV**
Project No.: **PRJC-193750-2009-PRC-NOR**

Applied Standards/Tests carried out:

The following standards/specifications have been applied:

- Pr EN 81-41 with following differences:
 - Intended use is "For persons with or without impaired mobility".
 - Platform sizes for new and public buildings not restricted.
 - Electrical safety device on the safety nut replaced with a mechanical safety device.
 - Main switch switches of the lighting on the lift, instead the emergency lighting is extra strong.
 - RCB is required for the power feed to the lift instead of being built into the lift.

Terms and conditions

This certificate is subject to the following terms and conditions:

The producer (see 2001/95/EC for precise definition) is liable for damage caused by defect in his product(s), in accordance with directive 85/374/EEC, as amended, concerning liability of defective products.

The following conditions may render this certificate invalid:

- Changes in the design or construction of the product
- Changes or amendments to the referenced directive
- Changes or amendments in the standards which form the basis for documenting compliance with the essential requirements of the directive

Marking of product

This Certificate is only concerned with the design of the product. To fully meet with the requirements of the Directive and legally affix the CE mark, the manufacturer must take all necessary measures to ensure the manufacturing process makes sure that the manufactured product complies with the technical documentation and with the requirements of the Directive, and draw up an EC declaration of conformity.
